Editorial note AT

Stones from the Pskov region. Translated from the Hebrew

About the author

Immediately after the publication of the article, GG Kotova " Unique stones Pskov region "published an article Igal Zamir," A different approach to deciphering the inscriptions on the stone of the Pskov region "

However, the editors of AT continues to receive feedback: one - with a fair bewilderment, others - with undisguised glee, and others - with threats to lead us "to light" and deliver us scientific anathema, labeling us as ignorant pseudo, the fourth - with the requirement to remove the article D . G. Cats that someone posted to facebook.

All that we have been through. All this - is not new.

Novo more. There were not just spiteful critics, and those who just sent a translation.

We are grateful to Rabbi Meir, the Moscow Choral Synagogue Manevichi and director of the Sunday School Mission RMU "Jewish Agency" in Moldova Lina Buneeva.

From a letter Meir Manevich

"The fact that the text is written in stone Jewish (square) and the letter in pure Hebrew, that is Hebrew.

Translated like this: Here lies a modest daughter Chaya p. Ytshaka. At the bottom end of the abbreviation: Be it her soul sealed chain alive.

This text - a traditional, well so far decided to write on Jewish gravestones.

For comparison, sending you additional pictures of tombstones "

stone of the Pskov region

From a letter by Lina Buneeva

"The fact that you have not turned the tomb in order to decrypt it. I'll help you with it, decipher and translate.

פ" נ (פה נקבר) - Here lies

הצנועה חיל - Modest dobrodetelnitsa

מיי בת המר יצחק - Maya daughter of Mr. Isaac

כיי פסח (April 10) the 30th day of the feast of Passover

שנת תרב - in 1842

תנצבה - May the soul of her tied up in a knot of life "

Worthy of respect this concern about their history, about their ancestors and usposhih.

A spiteful critics, we would like to advise quickly, drop by drop, to squeeze out a first "scoop", in which knowledge is developed only entertain their pride and vanity, and then to slaves.

Editions of the AT, the Stones of the Pskov region. Translated from the Hebrew / / "Academy Trinitarizm", M., El № 77-6567, publ.17740,
